A composite image showing a web browser, a terminal window, and a file explorer.

The browser window displays the Pokédex application running on localhost:4200. It features a search bar with filters for Version (Green), PKMN Name, and PKMN Type (All). Below the filters, there are three Pokémon cards: Bulbasaur (001), Charmander (004), and Squirtle (007). The search results show 151 results.

The terminal window shows the output of the Angular Live Development Server. It lists the files and their sizes, including styles.css, main.js, runtime.js, and various chunk files. The build time is 20216ms, and the server is listening on localhost:4200.

The file explorer window shows the file structure of the project, including the src directory and the dist directory.
